Association of Medical Illustrators

Experience

Medical Animator

August 2018 - Present

Klick Health

Produce, pitch and design concept art, storyboards, illustrations, animations, 3D models, as well as VR & AR experiences for pharmaceutical brands.

Freelance Medical Illustrator

Sept 2017 - Present

Toronto

Created various scientific illustrations, including graphics for a medical review handbook for UofT medical students, Toronto Notes.

Teaching Assistant

Sept 2017 - Dec 2018

University of Toronto

Guided students to develop their skills in reviewing scientific literature and writing ability in the course 'Written Communication in Healthcare'.

Multimedia Developer

May 2017 - Sept 2017

McMaster University

Produced illustrations, animations, and interactive figures for an anatomy & obstetric e-textbook. Presented work at team meetings with stakeholders to review design and scientific accuracy.

Projects

Kidney-on-a-Chip

2018

Laboratory for Functional Tissue Engineering, Toronto

Created an animation in collaboration with biomedical engineers from the University of Toronto to highlight current research in kidney tissue-engineering.

Antibiotics & You

2018

Sinai Health Systems-University Health Network, Toronto

Produced a fun animation to educate patients and families about antibiotics.

Education

MSc in Biomedical Communications, University of Toronto

2018

HBS in Biology (Physiology Specialization), McMaster University

2014
