RECOGNITION

**Association of
Medical Illustrators**
Award of Excellence, 2018

EXPERIENCE

Medical Animator | Klick Health
August 2018 - Present
Produce, pitch and design concept art, storyboards, illustrations, animations, 3D models, VR & AR experiences for large pharmaceutical brands.

andrealam.ca | Freelance
Sept 2017 - Present
Created various scientific illustrations, including graphics for a medical review handbook for UofT medical students, Toronto Notes.

Teaching Assistant | University of Toronto
Sept 2017 - Dec 2018
Guided students to develop their skills in critically reviewing scientific literature, as well as their writing ability with a focus on written communication in healthcare.

Multimedia Artist & Developer | McMaster University
May 2017 - Dec 2017
Produced illustrations, animations, and interactive figures for an anatomy & obstetric e-textbook. Presented work at team meetings with stakeholders to review design and scientific accuracy.

PROJECTS

Kidney-on-a-Chip
Laboratory for Function Tissue Engineering | Jun 2017 - Aug 2018
Created an animation in collaboration with biomedical engineers from the University of Toronto to highlight current research and recent breakthroughs in kidney tissue engineering.

Antibiotics & You
Sinai Health Systems-University Health Network | Mar 2018 - Apr 2018
Produced a fun, digestible animation to educate patients and families about antibiotics - what they are, side effects, and common misconceptions.

EDUCATION

MSc in Biomedical Communications | University of Toronto | 2018
HBSc in Biology (Physiology Specialization) | McMaster University | 2014
